Articulating Paper

Henry Schein Articulating Paper

Articulating solutions across booklet, dispenser, refill, and sheet formats
Henry Schein Articulating Paper is intended for identifying occlusal contact points during articulation checks. The range includes booklet, dispenser, refill, and sheet formats across multiple thicknesses to support different clinical preferences, adjustment requirements, and workflow setups.

Product Highlights

- Available in multiple thicknesses, including 38 micron, 40 micron, 45 micron, 71 micron, and 195 micron options
- Formats include booklets, dispensers, refills, sheets, and horseshoe sheets
- Range designed to support different articulation marking preferences and workflow setups
- Suitable for restorative adjustment, occlusal assessment, and general articulation checks

Applications

- Identification of occlusal contact points
- Articulation checks during restorative procedures
- Selection of different thicknesses for varying marking requirements
- Choice of booklet, dispenser, refill, or sheet formats to suit practice workflows
